Release Notes
July 18th, 2010

Enhancements

- The principal and teacher evaluation collection tool for Corporation Administrators has been removed

- ISTAR Integration: The permissions screens for an educator at both the corp and the school have been modified.

- IDOE Administrators now have more metrics such as average # of logins, etc.

- Communities: It is now easier for owners of communities to send others the url of their community

- Contact Us: ISTAR and Growth Model have been added as options when contacting support

- A staging/ test environment has been created to better address technical support issues

- Within the STN Application Center, SPN's with only 3 digits entered for Last 4 SSN, now have 4 (e.g. 444 is now 0444)

- Learning Connection Administration: A DOE admin can now deactivate an account

- ISTAR Application: The ISTAR Application will be released this fall

- ISTEP Reports: 28 above passing is now distinguished from 28 below passing. A negative sign now appears

- LC Registration Guide is updated (see updated version under the files tab of this community)

- Admin Quick Set-up Guide is updated (see updated version under the files tab of this community)

- ISTAR Integration Guide—Phase 2 Created (see updated version under the files tab of this community)

- FAQ for ISTAR and LC Users Guide Created (see updated version under the files tab of this community)
